11. BASIC INFORMATION TAB

Basic Information

The Basic Information screen comes to the forefront since it is the default tab when creating a new or opening an existing form.

The information on the basic information tab is largely carried forward from the initialization screen when the form was first created, which includes the following non-editable fields – budget period, worksheet type, project type, department/agency, BRU, and county.

Enter the Department **priority** for the specific request; it is a required field. IBIS will not allow duplicate priorities. For example, IBIS will only allow a department to have one priority identified as #1 for each type of request (i.e., Capital Improvements and Repairs and Renovations).
